

BIG DATA VALUE cPPP

ANNEX 3 to the Monitoring Report 2018

Implementation of the call for proposals evaluated in 2018

Version 1. July 2019

BDV BIG DATA VALUE
ASSOCIATION

ABOUT THIS DOCUMENT

This document is part of the Big Data Value contractual Public-Private Partnership (BDV cPPP) Monitoring report 2018 and complements the information provided in the main report and Annex 1 to the main report. In particular this Includes detailed information on the implementation of the Call for proposals 2018.

Version control:

Version 1.0 (July 2019) Annex 3 to the first official version of the Big Data Value cPPP Annual Monitoring Report 2018.

1 IMPLEMENTATION OF THE CALL FOR PROPOSALS EVALUATED IN 2018

The Work Programme 2018-2020 published on 27th October 2017, called in 2018 for 3 topics dedicated to the Big Data Value cPPP: ICT-11 (subtopic b), ICT-12 and ICT-13.

The calls evaluated in 2018 included 2 topics (ICT-12, ICT-13) with the deadline for submission of proposals of 17th April 2018. In particular:

- ICT-12-2018 - Big Data technologies and extreme-scale analytics: Subtopic a) (RIA) and subtopic b) (CSA). Total indicative budget for 2018 was 31 MEuros.
- ICT-13-2018 - Supporting the emergence of data markets and the data economy: Subtopic a) (RIA) and subtopic c) (CSA). Total indicative budget for 2018 was 13 MEuros.

Additionally topic ICT-11 subtopic a) evaluated also in 2018, establishes links to the BDV cPPP but it is not part of its portfolio and therefore not included as part of the BDV cPPP Monitoring Report.

ICT-11 subtopic b), part of the BDV cPPP portfolio, opened in July 26th 2018 and closed in November 14th 2018. This subtopic has been evaluated during 2019 and therefore will be included as part of the Monitoring report 2019.

Table 1 provides quantitative information related to the duration of the evaluation period, the number of Grant Agreements signed, the outcome of the call in terms of requested budget and funding from the EC. The total EC contribution to the 10 funded projects is 42,5 Million euros.

Table 2 provides information about the number of submitted and eligible proposals and the evaluation results, including the overall success rate of the call. Table 3 provides additional information in results per type of organisation (public bodies, Research organisations, High and Secondary institutions, Private for profit organisations and others) including the success rate per organisation type, and Table 4 shows EU contribution per organisation type.

For the evaluation the European Commission worked with 51 experts (of which 22 were women). The evaluation criteria were standard (no specific criteria applied) and they are described in the Chapter H of the general annexes to the H2020 WP2018-20¹.

The average time-to-grant (TTG) was 202.5 days for proposals submitted to the topics ICT-12 and ICT-13 that were evaluated and contracted in 2018.

Call Reference	Publication date	Evaluation period	Nr of topics	Nr of GAs signed	Indicative budget [max funding] (M€)	Outcome of the call ² (M€)	Funding	
							EU contribution	Private/cPPP contribution
H2020-ICT-2018-2	31/10/2017	4-13/6/2018	2	10	44 M	516,3 M	42,5 M	0 ³

Table 1: cPPP calls for proposals closed in 2018

Call Reference	Submitted proposal			Evaluation results		Success rate%
	Submitted proposals	Eligible proposals	% of retained	Above threshold	Selected for funding	
H2020-ICT-2018-2	113	113	100%	48	10	8,85%

Table 2: Evaluation results on the cPPP calls closed and evaluated in 2018

Type participant	Nr of participants in the Proposals	Nr of participants in the funded Projects	Participants success rate	% per participant type
Public Bodies	27	2	7,4%	2,3%
Research organisations	266	16	6,0%	18,4%
Higher or secondary education	257	22	8,6%	25,3%
Private for profit (excl. education)	591	43	7,3%	49,4%
Others	24	4	16,7%	4,6%
Total	1165	87	7,5%	
SMEs	282	22	7,8%	25,3%

Table 3: Number of participants in the cPPP calls closed and evaluated in 2018 and success rate by organisation type in 2018

² total amount requested in all eligible proposals

³ All topics were RIA and CSA only, with 100% funding rate. Therefore, the total cost of action was equal to the requested EU funding for all 10 funded actions.

From the total contribution of the EC to the calls 2018 (42,48 Million Euros), 45,7 % goes to private for profit organisations, 29,0 % to High Education Institutions, 20,5 % to research institutions, 1,1 % to Public bodies, and 3,7% to others. **23,5 %** of the original EU allocated budget total goes to SMEs (9,97 Million Euros).

The ratio of BDVA member's participation for the calls funded in 2018 was of about 30% in the number of organisations and 36% in the funding.

Type participant	EU contribution	% EU Contribution
Public Bodies	481.865,00 €	1,1%
Research organisations	8.717.963,75 €	20,5%
Higher or secondary education	12.297.226,00 €	29,0%
Private for profit (excl. education)	19.413.172,25 €	45,7%
Others	1.564.937,50 €	3,7%
Total	42.475.164,50 €	
SMEs	9.968.930,00 €	23,5%
